Dear Mr. Jordan:

I am in receipt of your letter dated March 14, 2024. I categorically reject the assertion that this office is deficient in responding to the Committee's subpoena dated February 2, 2024.

As you note in your letter, we have already provided you with substantial information about our programs that are funded via federal grants. Further, as I expressed to you in my letter dated February 23, 2024, this office is in the process of producing relevant documents to you on a rolling basis and is undertaking a good faith effort to provide you with responsive information about our federal grant funding. As part of that ongoing process, we are again today making a document production.

Your primary complaint appears to be that we did not complete the production of your extensive document demands (including five categories of documents over a four-year period) in less than two months. That demand is unreasonable and unc customary and would require this government office to divert resources from our primary purpose of prosecuting crime. Let me be clear, while we are abiding by your subpoena in good faith and with due diligence, we will not divert resources that undermine our duty to the people of Fulton County to prosecute felonies committed in this jurisdiction. We will not shut down this office's efforts to prosecute crime – including gang activity, acts of violence and public corruption – to meet unreasonable deadlines in your politically motivated "investigation" of this office.

As noted above, included with this correspondence are additional documents responsive to your subpoena, including documents that are responsive to priority categories identified in your March 14, 2024, letter. We will make another production in the coming weeks.

However, let me again state this clearly: nothing that you do will derail the efforts of my staff and I to bring the election interference prosecution to trial so that a jury of Fulton County

citizens can determine the guilt or innocence of the defendants. My family, my staff and I have been threatened repeatedly by people making violent, often racist, attacks. Neither those threats, nor anything your colleagues and you say or do, will deter us from fulfilling our duty to bring this case to trial.

Yours in Service,

A handwritten signature in black ink, reading "Fani Willis". The signature is written in a cursive, flowing style. The first name "Fani" is written with a large, looping "F" that extends downwards and to the left. The last name "Willis" is written in a more compact, cursive script.
